

COMMANDO SUPER DUTY FOUR WHEEL DRIVE SHOCK ABSORBERS

“WEAPONS FOR OFF-ROAD”

AVAILABLE IN NITRO GAS AND FOAM CELL

COMMANDO SUPER DUTY 4WD SHOCK ABSORBERS

“THE FACTS”

The shock absorber is one of the key components of the automotive vehicle's handling performance. The main purpose is to give the passenger's a softer ride due to the varying conditions of road surfaces. If the shock absorber is faulty it directly impacts the safety of the vehicle as well as the comfort for the driver and passengers, this will also result in premature wear and tear of other important components of the vehicles suspension.

Commando Super Duty Nitro shock absorbers are filled with nitrogen gas, the unique valve in the shock absorber allows for instant changes from sudden impacts in driving conditions which allows the shock absorber to react quickly especially in four wheel driving conditions.

Commando Super Duty Foam Cell shock absorbers have all the benefits of a Nitro Gas shock absorber but with added ride comfort due to the design of the specially made chambers in the shock absorber which have numerous amounts of air pockets allowing the oil to disperse in and out evenly which reduces the operating temperature of the shock absorber resulting in greatly reducing shocker fade caused by overheating with the added benefit of extended life of the shock absorber.

SPECIFICATIONS

SPECIFICATIONS	
NITRO GAS	
PISTON AND BORE DIAMETER	35mm
ROD DIAMETER	15mm
PISTON MATERIAL	POWDER METALOGY WITH TEFLON
CYLINDER MATERIAL	PRECISION STEEL TUBE
ROD MATERIAL	45MN, MEDIAN CARBON STEEL HARDENED AND CHROMED
SEALS	MULTI -LIPPED
WORKING TEMPERATURE	-30°C~100°C
FLUID	GERMAN SHOCK ABSORBER FLUID
CYLINDER JOINING	REINFORCED WELDED
CONNECT RING BUSH	HIGH PERFORMANCE ANTI- SHOCK MATERIAL
FORCE FOR GAS	160~185N
DUST SHIELD DIAMETER	65mm
FOAM CELL	
PISTON AND BORE DIAMETER	40mm
ROD DIAMETER	18mm
PISTON MATERIAL	POWDER METALOGY WITH TEFLON
CYLINDER MATERIAL	PRECISION STEEL TUBE
ROD MATERIAL	45MN, MEDIAN CARBON STEEL, HARDENED AND CHROMED
SEAL CONSTRUCTION	MULTI -LIPPED
OPERATING TEMPERATURE	-30°C~100°C
FLUID	GERMAN MADE SHOCKER FLUID
CYLINDER JOINING	REINFORCED WELDED
CONNECT RING BUSH	HIGH PERFORMANCE ANTI-SHOCK MATERIAL
DUST SHIELD DIAMETER	70mm
USAGE CONDITIONS	BOTH ON AND OFF ROAD, SUITABLE FOR STANDARD OR RAISED HEIGHT VEHICLES AS PER APPLICATION DATA IN CATALOGUE
WARRANTY	2 YEARS OR 40,000 KMS, WHICHEVER OCCURS FIRST

Commando Super Duty 4WD shock absorbers are manufactured by CNSA and distributed in Australia by

AAi Australia 57 Meadow Avenue Coopers Plains QLD 4108
