GSP[®]

SINCE 1985

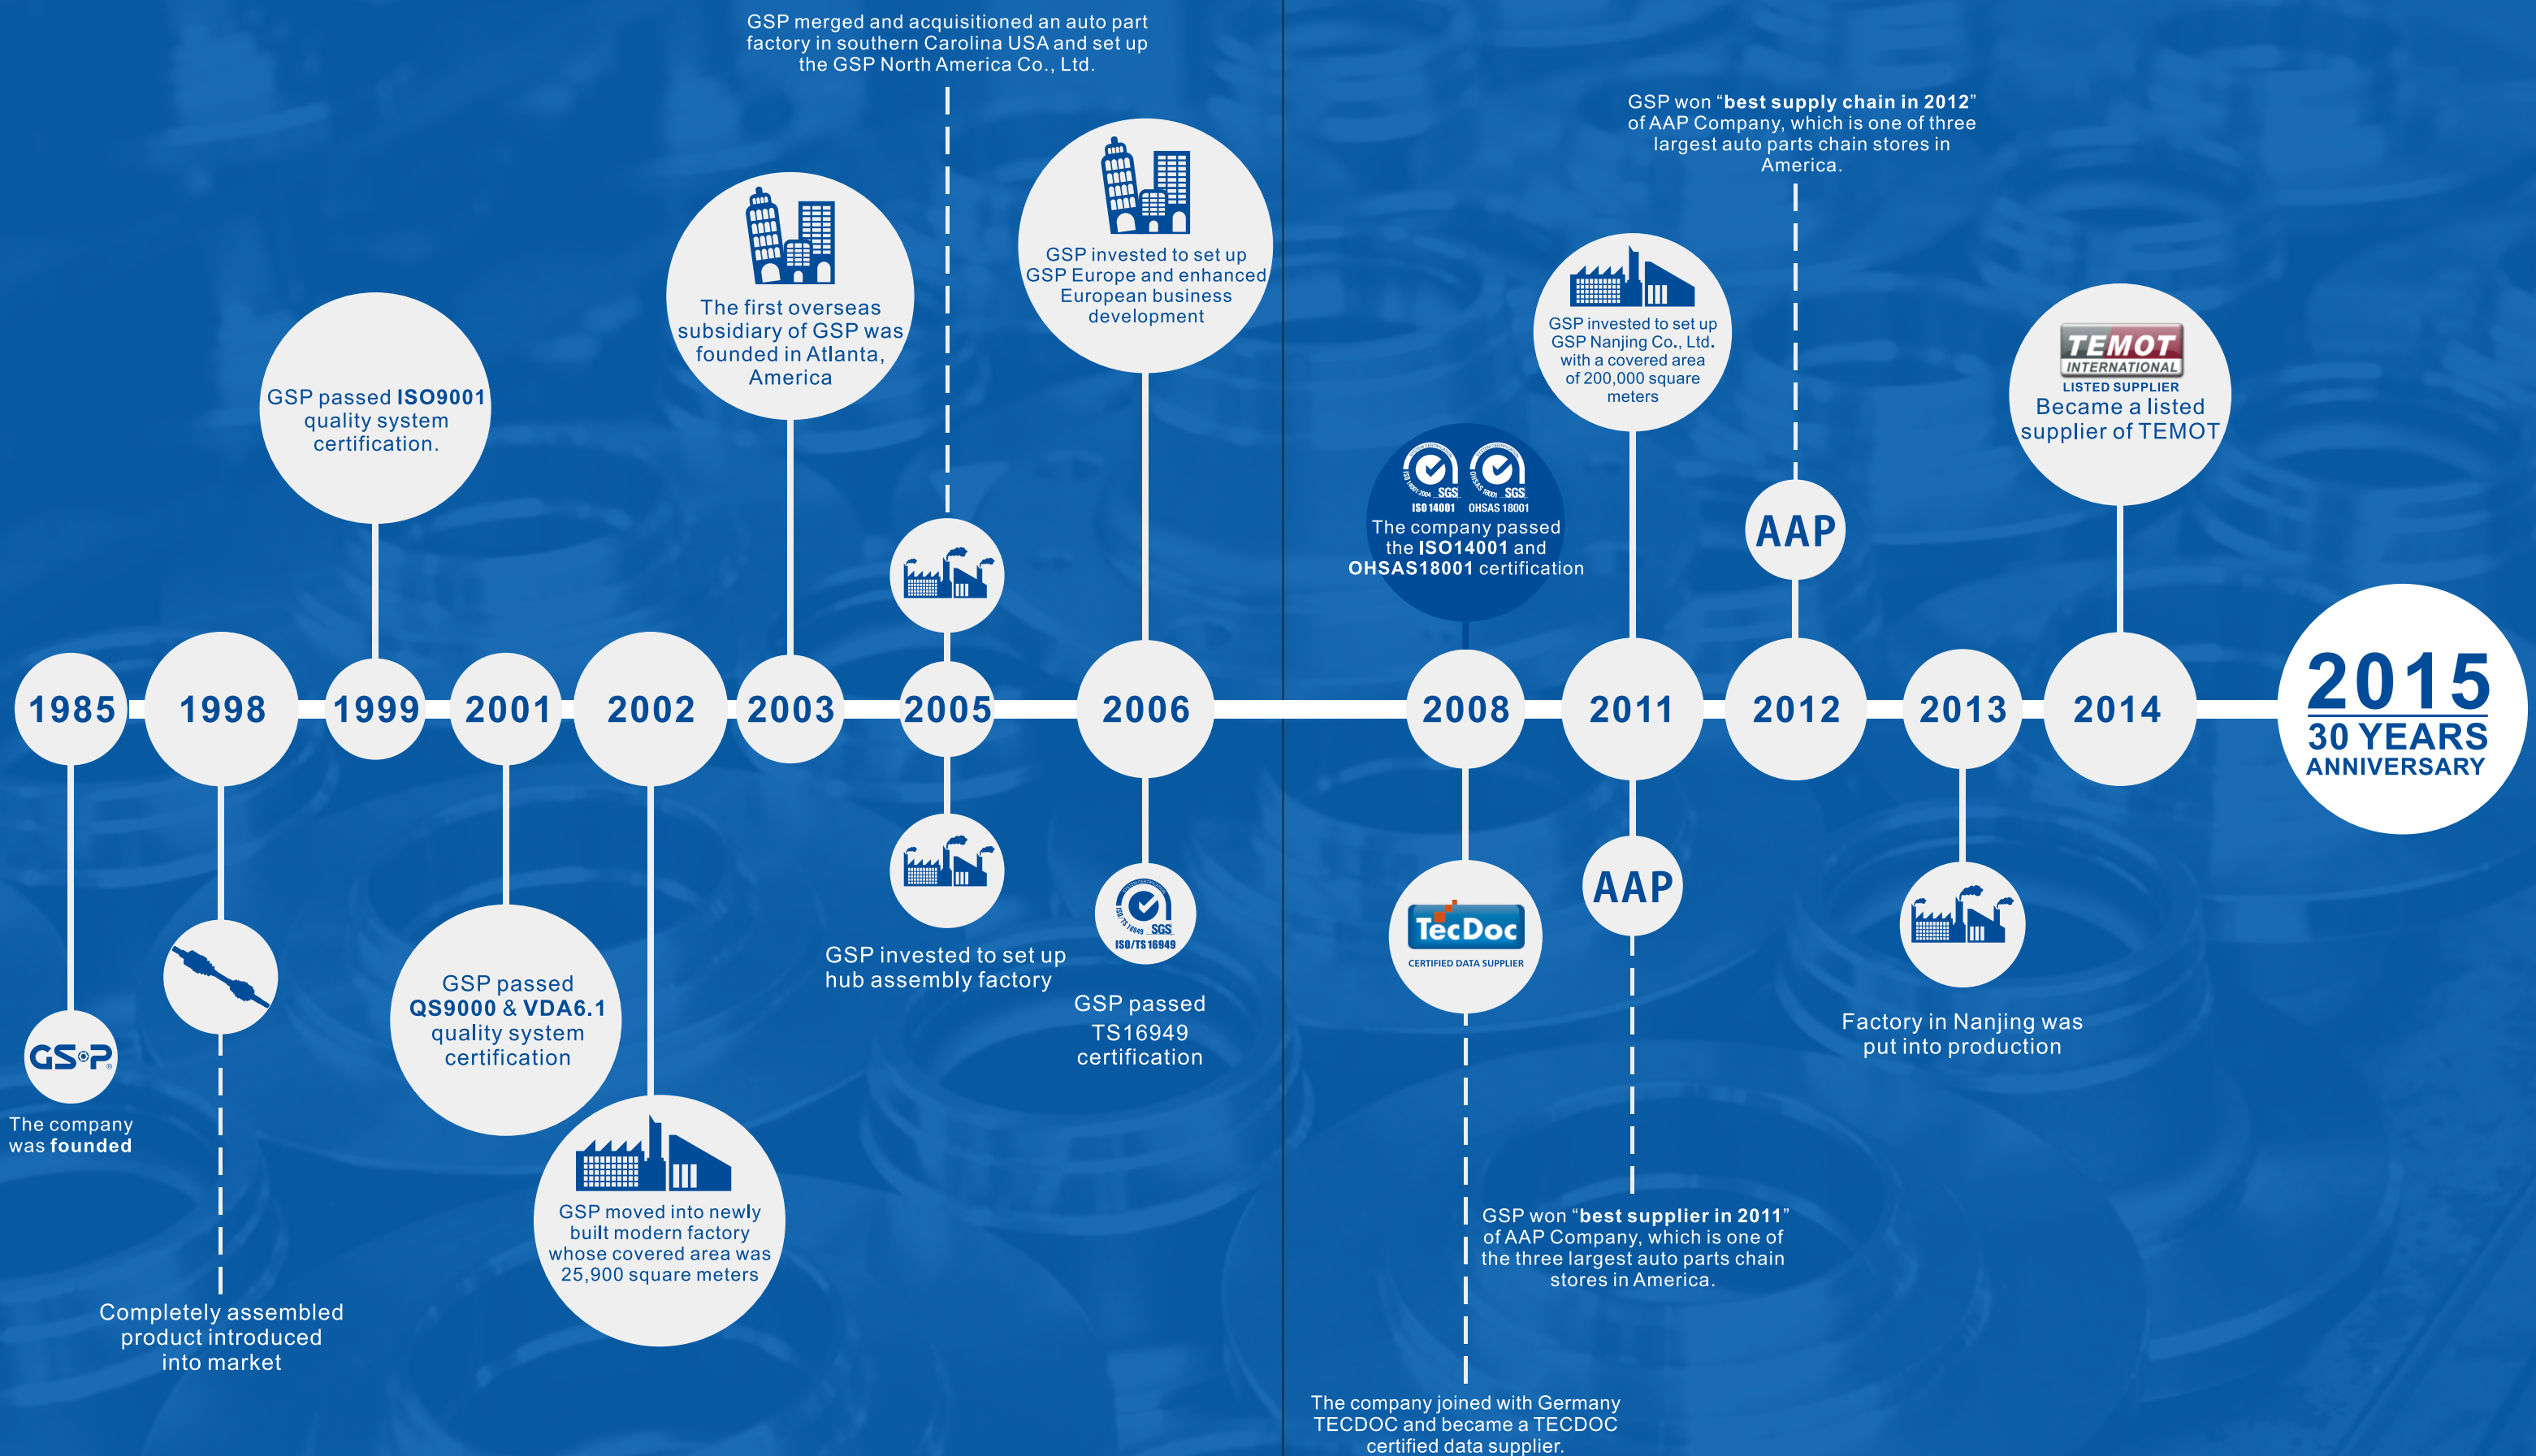

COMPANY PROFILE

GSP is a global leading supplier of automotive parts. Our products cover the C.V. Joint, drive shaft, hub bearing unit and rubber-to-metal components and others. We set up overseas companies and logistics distribution centers in America, Germany and so on. Our manufacturing base is located in China. In partial markets, we provide multi-product one-stop shopping service as requested by customers. Our GSP products have entered the multinational global auto parts procurement system. Our sales network covers more than 120 countries and regions globally. As statistics made by automobile industry association, the C.V. Joint provided by GSP for aftermarket ranks first in China for 8 consecutive years.

GSP has a strong technical force, advanced production equipment, complete detection means and good product quality. We are dedicated to providing complete product models, among which the drive shaft covers more than 95% models of global passenger cars. "To make our cooperative partners more competitive" is the operation principle that GSP keeps adhering to all the way. With the dream of "building excellent enterprise, achieving a hundred years of GSP", GSP is dedicated to providing best products and services to the auto parts industry.

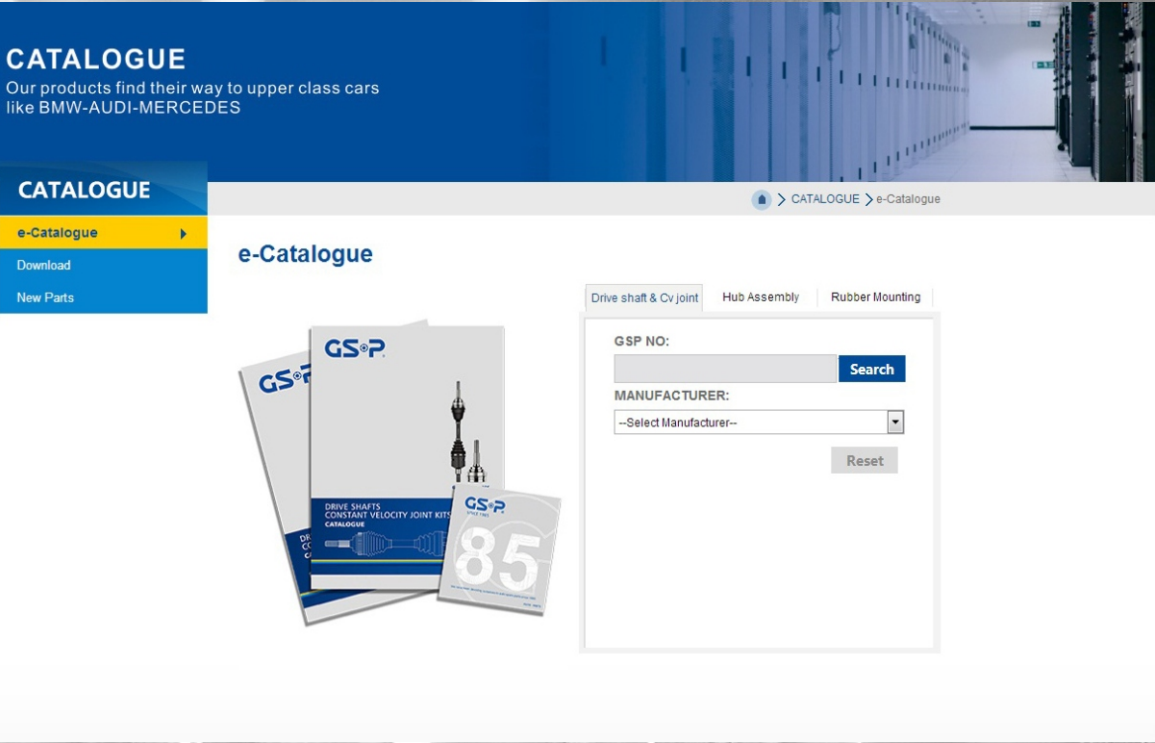

GSP worldwide

AADi engineers have more than 25 years of 'constant velocity driveline' experience in Australia. Our team works together with G.S.P. engineers to develop new model applications for the Australian market. This is what makes us the 'experts in constant velocity drive line'.

QUALITY SYSTEM AND CERTIFICATION

GSP has more than 30 years of experience in manufacturing. It accumulatively produces and sells more than 50,000,000 drive axles. We are not only a supplier of after-sales market but also have a profound understanding of our own products. We can amend the defect of OE product from design principle and manufacturing technique.

Through many years of accumulation, GSP has established complete quality control systems. We are dedicated to providing high quality product and strive to produce each new product line with the same quality.

MODEL COMPLETENESS AND CATALOGUE SYSTEM

GSP has realized that range completeness is one of core competitiveness in the aftermarket. Our product managers pay continuous attention to vehicle models available in the market as well as new vehicles being launched. When your company uses GSP products you are guaranteed to lead the market with new model releases and product range.

WE PROVIDE

Complete catalogue system
Professional catalogue team and professional catalogue database for the convenience of customers to identify our products rapidly and correctly.

Research and development
Regularly providing new product releases using the latest technologies to enhance our customers' market competitiveness.

Professional data platform
The company joined TECDOC in 2008, and is a TECDOC certified data supplier.
GSP is a data supplier of www.showmetheparts in North America.

SERVICE

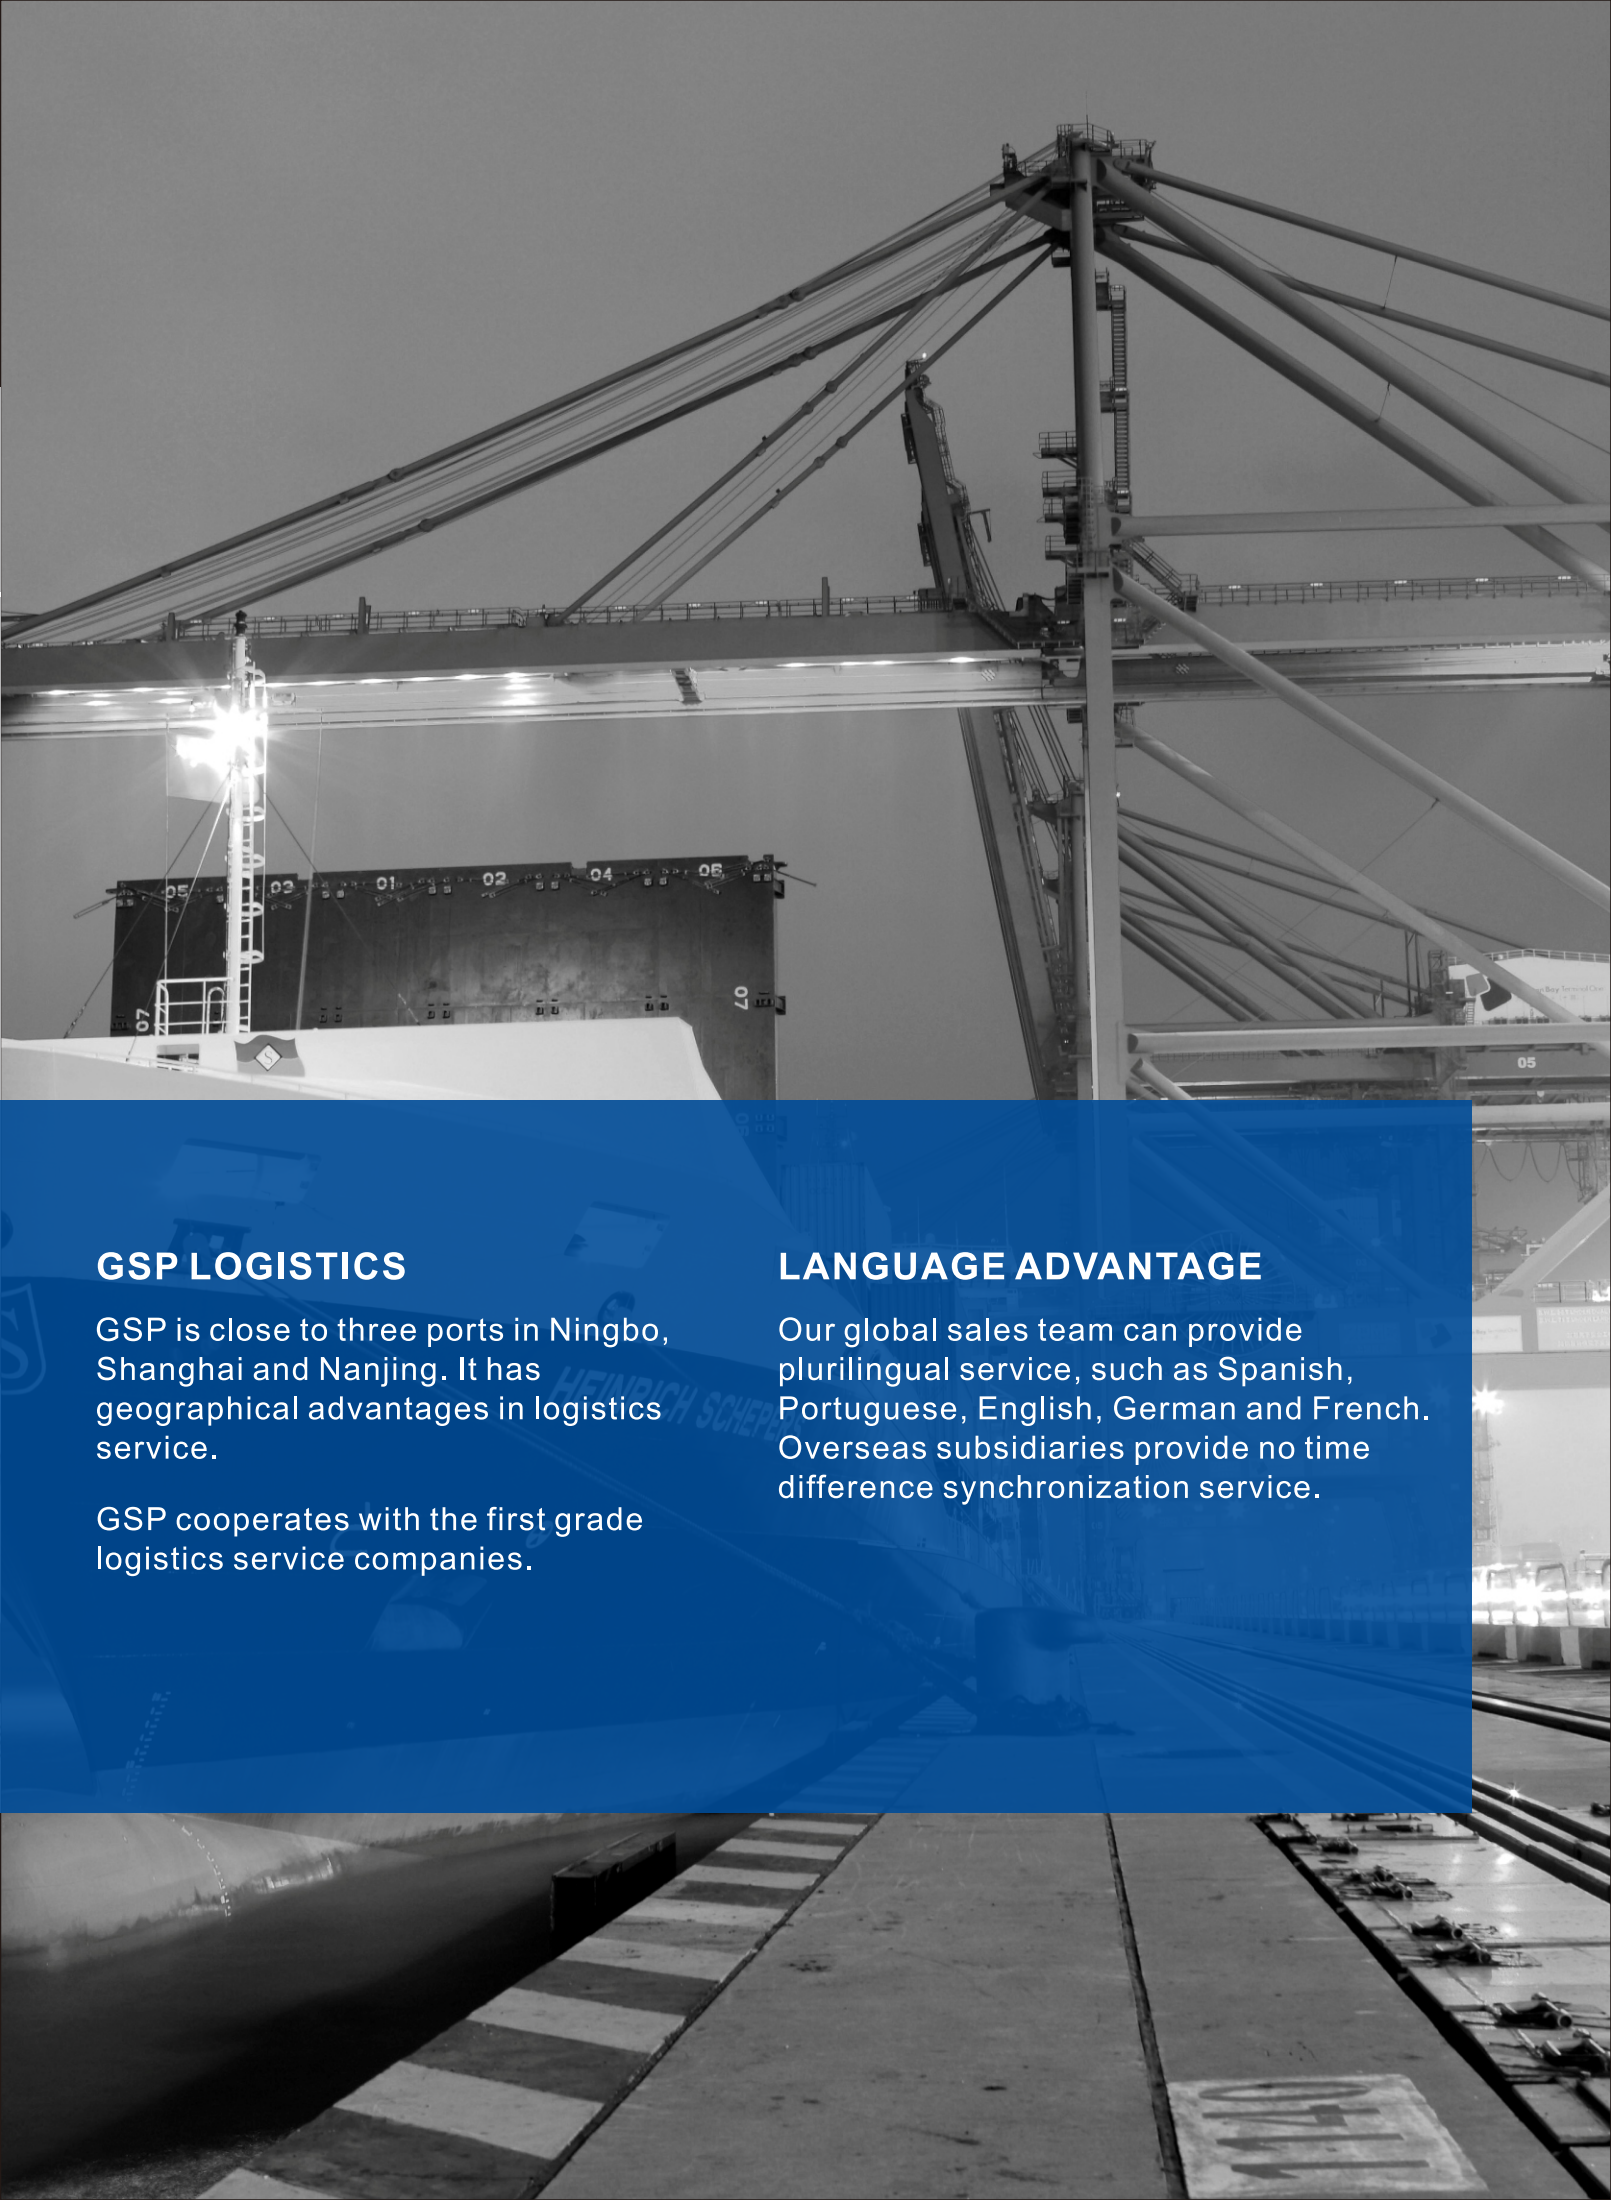

SMALL BATCH SUPPLYING CAPACITY

We can rapidly provide orders of small amount and multi-species, reduce customers' inventory risk and satisfy demands on rush order. Inventories of partial products are established in Chinese and overseas distribution centres for rapid delivery.

ITSYSTEM

Advanced ERP system manages order placing, production and delivery. SF system maintains customer information and provides various information and notice. Convenient portable office system ensures that we can contact customers at any time and in any location, so that urgent and important information can be conveyed the first time.

GSP LOGISTICS

GSP is close to three ports in Ningbo, Shanghai and Nanjing. It has geographical advantages in logistics service.

GSP cooperates with the first grade logistics service companies.

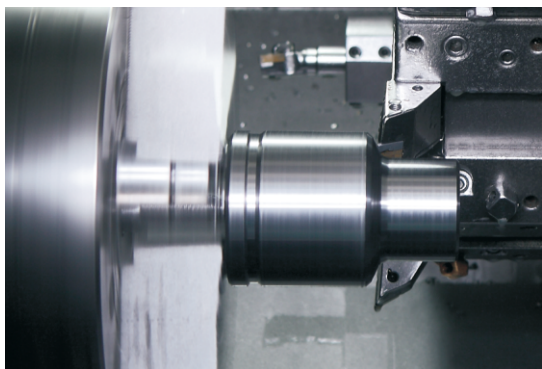

LANGUAGE ADVANTAGE

Our global sales team can provide plurilingual service, such as Spanish, Portuguese, English, German and French. Overseas subsidiaries provide no time difference synchronization service.

WE PROVIDE HIGH-QUALITY PRODUCTS

Audits are being repeated regularly and certificates are renewed accordingly. GSP does not compromise. The standards, systems and materials used in manufacturing ensure the highest quality. Our products find their way into premium class cars like BMW – AUDI – MERCEDES.

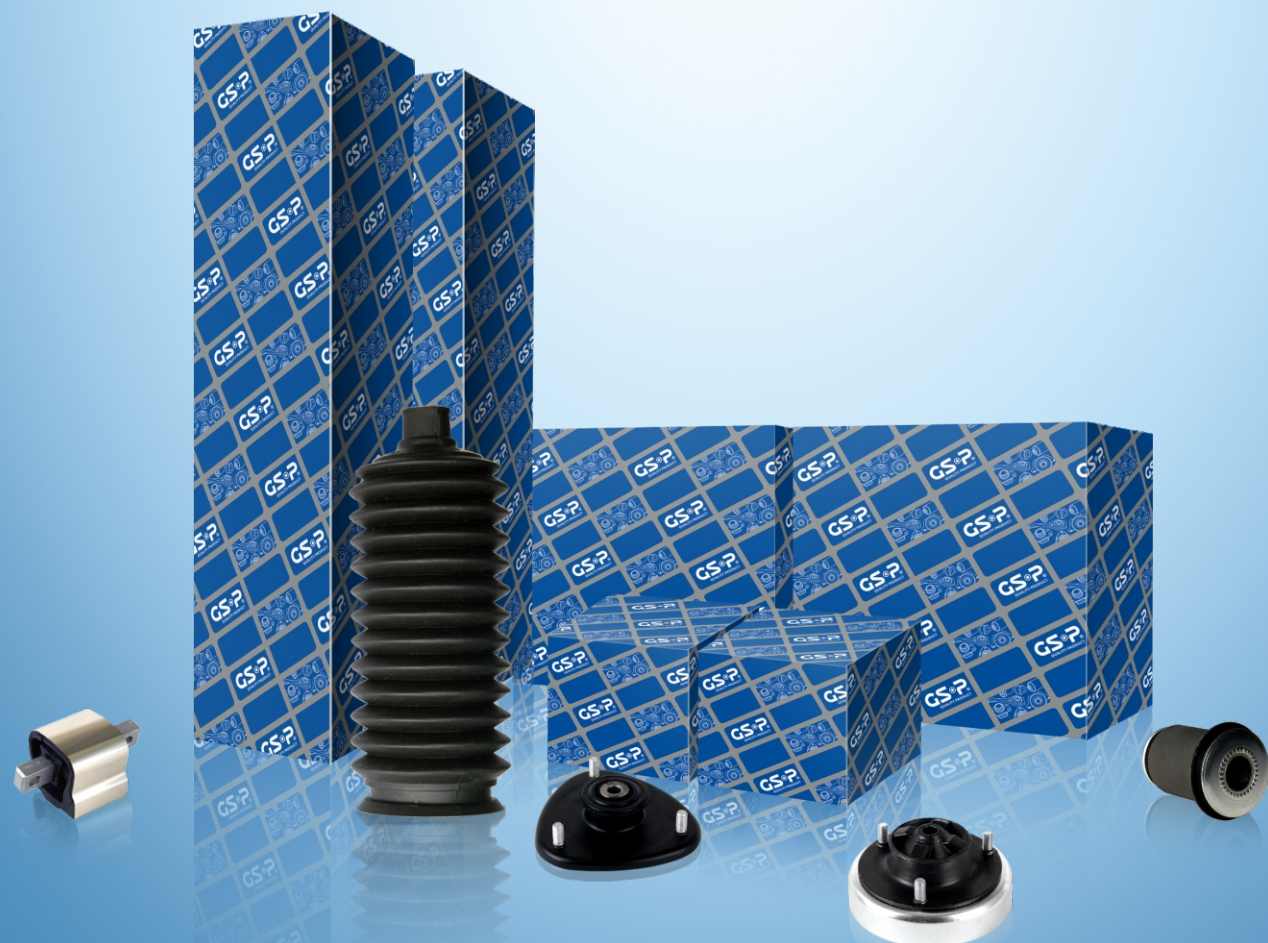

ENVIRONMENTAL PROTECTION

The company continuously invests in energy-saving technology and energy-saving transformation. It has improved and updated key energy-consuming processes and equipment such as heat treatment plants and so on. Over 5 years, energy consumption of ten thousand yuan output decreases by 27.7%. In 2011, discharging of carbon dioxide whose amount equaling to about 410 tons of standard coal is decreased.

The company has invested to build a sewage treatment plant according to national standard. Factory sewage is discharged after being processed and reaching national standard.

Products:

1. Engine Mounting
2. Strut Mounting
3. Bushing
4. Center Bearing
5. Rubber Buffer
6. Flexible Coupling
7. Tie Rod
8. Boot

Range

A major advantage of GSP is the range. The group has been following the trend of global vehicle types and keeps developing and updating the product range.

- More than 5000 part numbers.
- 60% are Japanese and Korean car applications.

Unique advantage: Storage sales

China Distribution Centre: more than 2,000 models stock and 1500,000 pieces standing stock. Inventory guarantees fast and emergency order delivery and no restriction for minimum quantities for the stock.

Overseas distribution centers will hold stock to cater for local markets.
